// INITIALIZING PORTFOLIO.EXE

Building Systems Behind the Interface.

I build production-ready full-stack applications, AI-powered workflows, retrieval systems, and cloud infrastructure.

FULL STACK | AI / RAG | CLOUD

// ENGINEER PROFILE

Shivanshu Shukla

Full Stack Developer | Founder & Product Lead

BASED IN	New Delhi, India
EDUCATION	B.Tech CS · GGSIPU · 8.6/10
CONTACT	shivanshushukla2022@gmail.com
PORTFOLIO	shivanshushukla.vercel.app
GITHUB	github.com/shivanshu-tech
PHONE	+91-9560137315

// ARCHITECTURE / REQUEST TO ANSWER

Reference architecture across my full-stack and AI experience

FRONTEND React / Next.js › **API LAYER** Node / FastAPI › **AUTH** JWT / RBAC › **AI + RAG** Gemini / Vector › **DATA** Mongo / Firebase

PRINCIPLES server-side secrets • gated execution • relevant retrieval • measurable latency

SELECTED PROOF OF WORK

30+ production websites • 3,000+ registered platform users • 250,000+ visitors

© 2026 SHIVANSHU SHUKLA / ENGINEERING PORTFOLIO

// SELECTED SYSTEMS / CASE STUDIES

01 CompanyBrain

ENTERPRISE KNOWLEDGE SEARCH / RAG

Document PDFs → parsing → chunking → vector indexing → semantic retrieval → conversational answers.

ENGINEERING DECISION

Offline vector caching balances compute cost and retrieval latency; document segmentation influences relevance.

RESULT / ~1.3s retrieval latency

02 AI Voice Assistant

DESKTOP AUTOMATION AGENT / ELECTRON + GEMINI

User request → conversational state → intent routing → gated action execution → controlled local automation.

ENGINEERING DECISION

Execution gates constrain model-triggered actions; persistent state reduces repetitive requests.

RESULT / ~65% fewer repetitive interactions

03 ApplyAI

AI RESUME SCREENING / NEXT.JS + GEMINI

Resume parsing → semantic candidate ranking → role similarity → AI-generated recommendations.

ENGINEERING DECISION

Role-based access and explainable screening support human review.

DESIGN / Human-in-the-loop evaluation

// PROFESSIONAL EXPERIENCE

2026 — NOW	**BINARY GECKOS**	30+ production sites; Stripe, GA4, webhooks, PAP.
2025 — 2026	**ARORA INNOVATION**	React / Node APIs; AWS EC2, ECS, VPC, CI/CD.
2024 — NOW	**COLLEGEXCONNECT · FOUNDER**	3K+ users; 250K+ visits; 30+ college partners.
2025	**TIKK18**	Next.js website, APIs, SEO, Core Web Vitals.
2024	**VITAL-VISTARA**	React / Firebase interfaces and internal tools.
2022	**SALESFORCE**	Secure workflows, access control, JavaScript.

// TECHNICAL STACK

FRONTEND	React · Next.js · Tailwind · Electron
BACKEND	Node.js · FastAPI · REST · WebSockets
AI / DATA	Gemini · RAG · MongoDB · Firebase
CLOUD	AWS · Docker · GitHub Actions
SECURITY	JWT · RBAC · Webhooks
